THE effect of the great war on Men's Clothing will be felt this spring—still more next fall.

We have had to buy with greater care and discrimination than ever, to protect our customer against poor fabrics.

That's why we appreciate having a line of medium-priced clothes for men and young men, that is absolutely dependable—Clothcraft.

Every piece of cloth that enters the factory is tested mechanically to determine its strength and chemically to prove its ingredients. This is but the first of a long series of safeguards that protect Clothcraft values.

But don't wait too long, there'll be greater demand this spring for nationally known value like Clothcraft. Buy early

J. J. Painter was in Memphis, Tenn., a few days ago on business. John Evans returned from Chicago a few days ago where he landed a good traveling position. Mr. Evans was with Colgate & Co., of New York, at the time he went to Chicago, but was looking for a better place, and from what we are able to learn he got a better position and some boot. Herbert Painter, son of J. J. Painter, who has been in Mississippi for several years, returned home last week. Mrs. Bettie Tharp received a message from Coalgate, Okla., a few days ago announcing the death of her son, John Tharp, who died suddenly at his home there. Mr. Tharp had a good position, and we understand had accumulated quite a little fortune. His mother, and one sister lives in Oklahoma. Dr. W. J. Edmiston, of Crab Orchard, was in town one day last week on business. Mr. and Mrs. Brack Durham, of Spark's Quarry, have been spending several days with relatives here. Dewey Bowder and Leroy Albright left last week for Cincinnati, where they have positions. D. J. Hunt, of Danville, was with his sister, Mrs. W. H. Anderson, here last week. Nathan Brummett sold a small farm to John Hunt for \$500.00 and Clarence Shafer sold his farm of fifty acres to S. F. Bowman for \$1,950.00. Our friend Bowman is trying to locate on the Boone Way it seems, and in our opinion those who want to live on this great thoroughfare had better invest now. J. M. Lear, one of Rockcastle's best citizens, died at his residence near Hlat, Tuesday of last week, and his remains were buried in the Oak Hill cemetery on the following afternoon. He had been suffering from tuberculosis for several months, and his condition had been considered very serious for several weeks. He leaves quite an estate to be divided, according to his will, among his children. Besides his widow he is survived by a number of children, all of whom were with him at the time of his death. Dr. W. F. Carter, and little son, Master Charles Hicks, were in Shelbyville last week. Born to the wife of Ous Frith on Thursday of last week a baby boy, J. V. Frith, elected a director of the Citizens Bank at a recent meeting of the directors to fill the vacancy caused by the death of T. S. Frith. A. M. Hatt and John Robins were in Louisville last week on business. Brooks Montgomery, of Elizabethtown, was here last week looking over the timber of Frith Bros. John Robins sold a house and lot on the corner of Main and Church streets to Miss Clyde Watson. This is the property where Mr. and Mrs. J. F. Watson have lived for the past several years. Miss Ella Carson, who has been in Detroit, Mich., for several months, returned home Sunday. Miss Ella speaks very highly of the northern city. L. N. Vanhook sold 18 acres of land to Morgan Helton last week for \$280. Frank Ward, of Junction City, was with home folks here Sunday. Beale and Ottie Hill left Sunday for Detroit, Mich., judging from the number of our folks that have recently taken up their abode in Detroit, that in a short time a great number of their population will be Brodhead people. The Rev. H. T. Young and J. C. Moore, of Mt. Vernon, were in town Monday. County Attorney Gentry was in our city Tuesday on business. Born to the home of Mr. and Mrs. Tilden Frith last Monday, a fine baby boy. Mr. and Mrs. Roscoe Pike, of Danville, are visiting his parents, Rev. and Mrs. A. J. Pike, this week. Jesse Simpson, of Garrard county, was with Mr. and Mrs. Larkin Hicks, during the week. A. M. Hatt and John Robins were in Staaford, Tennes-

DANGERS OF DRAFT.

Draft is best when we are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a refreshing sensation of comfort and warmth and quiet rest and sleep is possible. Good for Neuritis too. Price 25c at your Druggist.

Livingston

Died, March 6th, Uncle Pete Bryant, 83 years old and a member of the Christian church. He leaves a wife, two sons and two daughters and a host of friends to mourn his death. He was laid to rest in the Ward Cemetery to await the resurrection. Peace to his ashes, glory to his immortal soul. We see that your Brodhead correspondent failed to have a letter in the SIGNAL last week and we missed that letter very much as it is always full of good news. Mr. Cor., please come across with the news from your neck of the woods and we will try our best to do likewise.

Mrs. Nora Hughes has returned from Louisville after a week's visit with relatives. Miss Rhyll Hayes has been on the sick list for the past week, but is much better. Miss Gracie Owens has been confined to her room for the past week with tonsillitis. Mrs. Weslie McGinnis, of Pineville has been visiting relatives here for the past week. When we were in the Eighth Congressional district every year we received a lot of garden seeds, now that we have moved into the Eleventh, or rather the Eleventh has moved here, we fail to get any more seeds. We were not satisfied with the seeds then nor are we yet, not that we care so much for the garden seeds, but some how we are not so well satisfied here as we were before the move. It may

be possible that the Legislature will re-district the state again and if they do perhaps they will move us back home. D. B. Rambo was at Maywood Saturday visiting relatives.

Edgar Herd is working a few days in Paris this week. W. A. Warren has moved his camp case to E. B. Jones. Mr. Jones has a large job of concreting Mrs. Georgia McClure and Miss George McDaniels were in London Saturday. Mr. and Mrs. J. R. Coleman have moved to Louisville and Will Brady will get Mr. Coleman's place as fireman here, and will move his family from Lebanon Junction back to Livingston. J. E. Woodall, the sales man, of London, was here Wednesday shaking hands with our merchants. J. P. E. Drummond is spending a few days with relatives in Knoxville. Mrs. James Neal, was in Mt. Vernon Monday. Rev. Baker, of London filled his regular appointment at the Christian church Saturday and Sunday. Our old friend W. M. Hicks was in Mt. Vernon Saturday. We have heard that he purchased his license on that date, but this we do not know. If this be true, it is a good thing made the announcement public before now, yet we believe if Mart could find one of Mother Eve's daughters that he could love, or rather that could love him, he would enter the matrimonial field. We will let the readers of the SIGNAL know if it be true, for we have done all in our power to help him find a better half.

Knoxville's First Trade Trip

The Knoxville Board of Commerce is receiving enthusiastic letters daily from the different Boards of Commerce of the towns and cities to be visited on their First Trade Trip, assuring them of their hearty cooperation in making this trip the decided success the Knoxville organization desired it to be. While this is to be the first trip that Knoxville has ever made of this kind, neither pains nor expense are being spared to make it a success in every way.

The purpose of this trip is not altogether for business purposes, or for selling goods, but rather to meet the people of the various towns from whom they buy goods and to whom they sell goods, and to bring them into a closer relationship with each other.

In several of the larger towns and cities where the "Special" is to stop for some length of time, preparation is being made to entertain the visitors in many ways; while in the smaller towns where the length of stay will not permit of extensive entertainment, other forms will be provided.

The "Special" will consist of eight all steel Pullman cars, including two dining cars and one combination baggage and refreshment car.

The train will carry over 100 of Knoxville's leading business and professional men and manufacturers on board. Besides these, there will be a large brass band to help make merry when the visitors arrive in the various towns and cities.

Each member of the party will wear a white hat and carry a striped umbrella in addition to wearing the regular badge.

The first Bell telephone placed on exhibition was at the Philadelphia Centennial in 1876. The one instrument answered for both "transmitter" and "receiver." It was regarded as a novel play thing. Many didn't believe it worked even after listening to it, but regarded it as a catch or trick to amuse the visitors. The writer attended this exposition during August of that year and saw the workings of the instrument demonstrated. On returning to Kentucky and reporting that he had heard the human voice over a telegraph wire, all doubted and, not a few laughed. He didn't tell it any more for some time. The laugh was turned.

"The Birth of a Nation," a movie film has received considerable free advertising at various points. Louisville took a whack at it in one of her courts a short time since under the plea that "race prejudice" was likely to be created on exhibition of the films. The court refused to grant an injunction to forbid the show. Now Lexington steps in to the ring and is making a noise like there was objection to be found in that city also. Appears to be a paying thing to the owners to "let em" keep on objecting. It's a rattling good "ad."

In 1851 when the Louisville & Nashville railroad was organized, the Falls City subscribed a million dollars. Eight years later when the road reached Nashville and found itself somewhat pinched for ready money, was relieved by Louisville furnishing another million. From that day to this the road has generally seen prosperity come its way, through wise and conservative management, and Louisville received its money back, with interest many years ago.

BOTH houses of congress have tabled resolutions offered by members to notify Americans not to travel on ships of the belligerent powers on account of Germany's threat to destroy such ships without warning. President Wilson contends that the passage of such a resolution would be an abridgement of the rights of our citizens accorded by international law. Congress sustains this contention.

R. L. McClure, the noted Lexington photographer, has received instructions from Mr. W. E. D. Stokes, of New York, to make a photograph and an electrotype of Peter Volo, to be used in Mare's history of Daniel Boone, Trails of Highways, etc. Peter Volo is the celebrated \$200,000 horse, the property of Mr. Stokes, Owner of Patchen Wilkes Farm, near Lexington.

THE height of filial love, devotion and other attributes, was discovered in the probate court of Allegan, Mich. last week. In reviewing an estate Judge Thompson found the claim of a man against his father for time and expense attending the latter's funeral. He itemized his claim, railroad fare, hack fare, etc., and \$3 per day for his time.

KENTUCKY'S two Republican members in congress could not drop their political partisanship and show some American Patriotism by voting to sustain our president, but voted on the Kaiser's side.

BELL county has \$36,000 invested in road machinery and equipment. Up to March 1, \$160,000 had been used in road construction.

MORE than 100,000 soldiers have been slain in the battles in and around Verdun, France, within the last twenty days.

TO PUT POWERS OUT OF POLITICS

Bills Introduced in House and Senate To Change The 11th Congressional District, Eliminating Knox.

Frankfort, Ky., March 6.—A move to eliminate Caleb Powers from Kentucky Republican politics, was made this morning when bills were introduced by Senator Brock, in the Senate and by Mr. Tarter in the House, to change the Eleventh Congressional district by adding the counties of Owsley and Jackson and changing the Tenth district by adding the counties of Knox, Bell and Harlan.

Knox county is Congressman Powers' home county, and the passage of the bill will make him ineligible to serve as congressman from the Eleventh district.

It is expected that the bill will have a very willing support from the Democrats in both the House and Senate, who are quite ready to encourage any agitation in Republican affairs.

Representative Tarter, who introduced the bill in the House, is a candidate for Congress, and the passage of the bill would probably bring out many other candidates.

Why Prince Albert Wins

Patented Process is Responsible For its International Popularity

Smokers so much appreciate the flavor, and coolness and aroma of Prince Albert pipe and cigarette tobacco that they often marvel that this one brand could be so different from all others.

The answer to this question is to be found on the reverse side of every Prince Albert package where you will read: "Process patented July 30th, 1907." That tells the whole story. Prince Albert is made by a patented process that cuts out the bite and parch, which makes the tobacco so mighty agreeing and satisfying to men of every taste of every civilized nation on the globe.

Smokers should realize that this patented process cost three years' continuous work and study and a

fortune in money to perfect But the result has proven to be worth all that was expended upon it, because it has set free men who believed they never could enjoy a pipe or a mackin's cigarette.

Prince Albert makes it possible for every man to smoke a pipe or to roll his own cigarettes. And no matter how tender the tongue, Prince Albert cannot bite or parch. That is cut out by the patented process, leaving for the smoker only the joys of the fragrant tobacco.

It is a fact that since Prince Albert "arrived," just about six years ago, it has made three men smoke pipes where one smoked a pipe before!

A TITANIC HOAX

Extracts from Mare's History of Daniel Boone, Trails and Highways, Etc.

(To be published soon.)

THE CARDIFF GIANT. A side show at Richmond, Madison county Fair, in 1870, had on exhibition the Cardiff Giant. "It is not often that a hoax becomes nation-wide and stir a country to a frenzy of excitement as did the supposed Cardiff Giant find, which was reported to the public in 1869 by W. C. Newell, a citizen of Cardiff N. Y., while digging a well, the figure of a stone man was found, at the depth of five feet, and upon investigation was pronounced to be a petrified man.

WAS TEN FEET HIGH. The length of the find was more than ten feet.

NEWS SPREAD QUICKLY. The news was quickly flashed over the country. Then began a regular stream of visitors to the little village.

SMALL FEE. Although only a small admission fee was charged to view the wonder, the idea of the vast number that journeyed to the place can be estimated when it is calculated that the sum of \$150,000 was paid to see the "giant."

SCIENTISTS VISIT THE SCENE. From all parts of the country came scientists to Cardiff, to pass their opinions. Many of them pronounced it a genuine petrified figure of a prehistoric man, a giant.

TO ADD TO THE MYSTERY. An old Indian squaw in the neighborhood, told of a tradition among her people that a gigantic Indian prophet buried in that place, had declared his body would one day be found in tact.

SPLIT AMONG THE SCIENTISTS. While the scientists disputed and argued, the fame of the Cardiff Giant grew day by day. A syndicate was formed to take the monster through the country and exhibit it. P. T. Barnum, the famous showman, offered a large price for the giant, but the syndicate would not sell.

WORLD'S LEADING TOBACCO TOWN

Winston-Salem, N. C. Now Manufactures More Tobacco Products Than Any Other City in the World.

Following are extracts from an address delivered by Col. A. D. Watts, Collector of Internal Revenue for the Fifth District of North Carolina at a smoker given by The Twin City Club, Winston-Salem, February 4th, 1916:

"SOME" COMPARRISON
Winston-Salem is supplying one fourth of all the chewing and smoking tobacco consumed in the United States, besides exporting vast quantities to foreign lands. This statement is taken from the report of the Commissioner of Internal Revenue for the first quarter of the present fiscal year and from private advices from Washington as to the second quarter, which ended December 31st last.

"Your city is making one-seventh of all the tobacco products—chewing and smoking tobacco, cigars, cigarettes and snuff—manufactured in the United States. Your manufacturers are paying on an average about \$37.00 a day revenue taxes to the government and the amount is increasing from month to month. When your government building, much the handsomest in the State, was completed last July at a cost of \$250,000 your newspapers made the statement that the taxes paid in your city to Uncle Sam for the first eight days of its occupancy would pay for it. Since September it has taken only a fraction over seven average days collections here to equal its cost. So in this week, Mr. Cranford has taken in \$206,428.50. I predict that before 1916 shall have ended your average weekly payments to the government on tobacco will more than pay for this magnificent building, leaving the collections for the other fifty-two weeks as clear profit to the government."

TOBACCO SHIPMENTS.
Winston-Salem is shipping on an average each week day to all parts of this country and to foreign lands at least \$150,000 of tobacco products.

"In conclusion, Winston-Salem manufactures more tobacco, all tobacco products are taken into this statement, than any other city on earth, little or big. Industrially she is easily first in North Carolina, population considered, first in America and I believe, in the world; socially, a never failing delight to her friends."

RECIPE FOR GRAY HAIR.
To half pint of water add 1 oz. Bay Rum, 1 small box of Barbo Compound, and 1 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

January, April, July, October and December 1916 have five Sundays each. Three of these Sundays occur on the 2nd day of the month, January, April and July. On the 1st of October and on the 3rd of December. This will not occur again until the year 1922 taking place in the same months as shown above with dates a little changed: January 1, April 2, July 2, October 1, and December 3.

INCREASING 4,420 A DAY

Washington, Feb. 21.—Census bureau experts estimate that the population of the United States on January 1, last was 101,209,315 and by July 1, it will be 102,017,202. On July 1, last year they figured the population at 100,339,318. Western states have led in growth, Washington leading the list, with Oklahoma, Nevada, North Dakota and New Mexico following in the order named. The bureau's estimates are based on the rate of increase between the 1900 and 1910 census.

A Parents and Teachers Meeting will be held at the Graded School March 17, at 2:30 p. m. Subject: "The present need at home and school, for our boys and girls." Parents come with your very best experiences and plans and let us reason together. Come if you have no children and lend a helping hand to your neighbors.

MRS. A. H. McFERRON, Pres. MRS. MATTIE MULLINS, Secy.

Work on the pike towards Roundstone was stopped yesterday by order of County Judge Ballard for the reason that the right of way has not been secured from two of the parties, through whose land the road runs. The grading is practically completed to Renfro creek, and the next land to enter belongs to Mrs. Ella Hiatt, who refuses to give a right of way. The bond issue money cannot be spent for right of ways and the Fiscal Court has taken a positive stand not to buy any. It looks like the parties along the line need to get busy and have those matters adjusted. We do not believe there is a jury in the land and that would give damages for a right of way for a good pike, but that is not the question. Spring will soon be here and there should not be any stumbling block in the way to retard the progress of this work. The same thing exists between Mt. Vernon and Livingston. Between Mt. Vernon and Brodhead the right of way is clear — County Judge Ballard, when asked about the situation, said: "In order to get State aid and get the work started in the time required by law, we were forced to cater to a few people between Mt. Vernon and Renfro creek, by agreeing to fence their land, but from now on, we will do no more fencing or paying for right of ways. If the right of way is not given between Renfro and Roundstone, the road will stop where it is."

LIBRARY

During the period in which the library was open last Saturday, applications were made for fifty-seven books.

Fathers and mothers pay a visit to this library and observe how anxious your boys and girls are to get good reading material, and if you have a volume to add to the shelves it will be very acceptable.

Miss McCord has remembered us with the second box of books from her New York home.

Mrs. Warren, of Louisville, has contributed over eighty volumes and among our home contributors appear the names of Mrs. Moynahan, Mrs. W. J. Sparks, Mrs. C. C. Williams, Mrs. E. S. Albright, Mrs. J. W. Brown, Mrs. Weber, Dr. M. Pennington and others.

Mr. Owens, proprietor of the Boone Way Opera House, allows the Library Committee, one-half the profits realized from his picture show, on Tuesday evening every two weeks. Go to the Picture Show next Tuesday evening and thus show your "public spiritedness."

CANNING CLUB

Having been appointed Canning Club Agent for Rockcastle county to succeed Miss Ella Carson, who has carried on the work of the girls Canning Club for the last two years, I shall start at once to organize clubs and will try hard to place a club in reach of every girl that wishes to become a club member and is willing to do her best work.

I earnestly request the interest and support of the citizens of Rockcastle county.

Yours truly, JALIA R. GENTRY.

CATARRAHAL DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube.

When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface of the Eustachian tube.

Catarrh Cure acts through the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All druggists, 75 cts. F. J. CHANEY & CO, Toledo, O.

Christian Church Widows and Orphans Home of Kentucky. LOUISVILLE, KY. March 8, 1916.

Dear BRO DURHAM:

Your good letter of March 6th is received enclosing a check for \$5.85 and telling us that "Brown's Men" of the Mt. Vernon Bible School desire to furnish the Orphan's dinner on March 28th.

I do not know how to thank this class for its interest and help.

Please say to them that a permanent display card will be hung in the dining room bearing the name of your school, the name of the class and the date of their dinner.

The attention of the children will be called to your class on this date.

They will be thinking of you and we want the men of your class to be thinking of the children in the Home.

With every good wish, I am Yours very truly,

J. S. HILTON, Sec'y and Treas.

Nearly everybody has recovered from the grip and planning to go to work as soon as the weather will admit. The roads are in worse condition than common, it is most impossible to travel. It seems that hogs are on a boom. There have been more hogs passed here for the past two weeks than have passed in two years before. —Wilburn and Joe Gatlin passed last Saturday with 21 hogs they bought in Jackson and Clay counties. They bought 75 head from one man in Clay county at \$6.30 per hundred. Hogs are still dying with cholera. Meat will be scarce next year. —Mose Gatlin Jr., sold his farm near Climax, to Lee King for \$450 and started to Sapulpa, Oklahoma, Feb. 28, to work in the oil fields. Mose is a splendid young man and we regret to give him up. —Myrtle Rowlett, aged 21, daughter of H. C. Rowlett, died Feb. 23rd, of tuberculosis. Her remains were laid to rest in the Scafield Cane cemetery Feb 24th. She had been in poor health for about a year. She was a good kind girl and was loved by all who knew her. She left good evidence of going to rest. We extend our sympathy to the bereaved parents. But we should

be submissive to the will of God. —The Holliness people are holding a revival at the new chapel on Henry ridge near Climax. They are having large crowds and good behavior (on the outside). —Miss Edith Chasteen has been visiting her grandmother for the past two weeks. —Mrs. Nannie Chasteen visited her mother Sunday. —J. W. Cox was here last week on business. —Mr. and Mrs. Robert Shearer visited relatives here last week.

TOWN LOTS

At Auction On The Premises,

MT. VERNON, KY.

FRIDAY, MARCH 17

2 P.M. Sale Rain or Shine. Terms Easy.

We have purchased that coveted piece of land fronting on Richmond St., from Bethurum & Lewis and have a crew of men beautifying and plotting this land into building lots with streets and alleys, and on Friday, March 17th we will sell these nice lots to the highest bidder regardless of price. Remember you make the price, we deliver the deeds. Now listen, you take a town that has grown to the importance Mt. Vernon has, with her fine churches, good schools, her cultured people, strong banks and business houses to back her up, there is only one way for these choice lots to go and that is higher and higher. So attend this sale and buy a few of these lots and watch your money grow. You know good lots are scarce and high in Mt. Vernon. You know these are the cream of the town. You know if you want a lot or two and don't get them at this sale, you will have to pay some one a handsome profit, so get busy at this sale and make the other fellow pay you the profit. Remember the man who does things is the man who comes to the front. Earth is the best investment on earth and good town lots the cream. Ask the man who has made money how he made it and see if he don't tell you.

"REAL ESTATE DID IT."

Don't forget that these lots will sell cheaper Friday, March 17th, than they will ever sell again, so be on the ground and pick up the bargains. Just a minute. Did you know the population of the U.S. is doubling every 27 years? Well, it is, and there is only one way for real estate to go and that is UP, UP, UP.

BIG BAND CONCERT ON THE GROUND

Don't fail to hear the whirl-wind auctioneer. He is an entertainer. Special invitation to the ladies. Every body come and let's have one big afternoon. Your neighbor will be there.
